B.2 PERFORMANCE WORK STATEMENT (PWS)

1.0 BACKGROUND

The Veterans Health Administration (VHA) Office of Geriatrics and Extended Care (GEC) is required to expand the Veteran Directed Home and Community Based Services (VD-HCBS) Program to all Department of Veterans Affairs Medical Centers (VAMC) to include development, implementation and evaluations of a VD-HCBS Program for Veterans with Traumatic Brain Injuries (TBI). The purpose of this requirement is to provide Veteran-centric services in a sustainable manner and to re-balance VHA's investment in Long Term Services and Supports (LTSS) by shifting resources from nursing homes to home and community-based services. VHA has initiated the VD-HCBS program, in conjunction with the United States Administration for Community Living, to divert at-risk individuals from nursing home care to in-home care. VAMCs evaluate Veterans who currently reside in nursing homes or are targeted for nursing home placement and are identified as candidates for transition to in-home care under the VD-HCBS program. VD-HCBS is part of the Department of Veterans Affairs (VA's) Homemaker/Home Health Aide Program, designed to provide Veterans with a trained person who can come to the Veteran's home to assist with personal care and daily living activities. A critical aspect of the program is that it is patient-directed, meaning that the Veteran may select a family member, neighbor or community member as their personal caregiver. State and local agencies become an important link between the Veteran, VA and the caregiver to provide case management, budgeting and financial services required for payroll of the caregiver. VHA has established VD-HCBS programs at 51 VAMCs. VHA requires expert assistance in developing and sustaining VD-HCBS programs across all (approximately 150) VAMCs. In addition, the companion programs for Veterans with TBI must be developed and implemented at all VAMCs. VA anticipates the national rollout will be completed by the end of fiscal year 2018.

VAMCs will partner with state and local agencies to implement this program nationwide. Each VAMC will purchase a service package from the local Aging and Disability Network Agency for Veterans. State and local agencies will provide the Veteran with:

- a. A flexible budget which the Veteran and/or representative can use to purchase home care and other services from traditional providers, family members and others in order to remain at home;
- b. A case manager/counselor to assist the Veteran in making decisions; and
- c. Financial management services to pay workers/taxes and ensure the Veteran's budget is on target.

The concept of consumer-directed care is fundamentally different from any VHA experience in health care. For this reason, VHA requires the technical assistance of the Contractor to implement this program in a competent manner. The Contractor shall evaluate state and local agencies for:

- a. Programmatic competence to implement and sustain the program;
- b. Financial competence to implement and sustain the program (e.g., to pay workers, withhold taxes, assist Veterans in budgeting, and maintain financial records);
- c. Readiness to implement; and

- d. Readiness to support the program.

The list of criteria to determine readiness will be provided by the Government. In addition, the Contractor shall provide training and technical assistance to VAMCs and Veteran Integrated Service Networks (VISNs) on the concepts and principles of sustainable participant (Veteran) directed services. 8.1 VA Information and Information System Security/Privacy Requirements

The certification and accreditation requirements do not apply, and a Security Accreditation Package is not required.

A. General

All Contractors and Contractor personnel shall be subject to the same Federal security and privacy laws, regulations, standards and VA policies as VA, including the Privacy Act, 5 U.S.C. §552a, and VA personnel, regarding information and information system security. Contractors must follow policies and procedures outlined in VA Directive 6500, Information Security Program; and VA Handbook 6500.6, Contract Security which are available at: <http://www1.va.gov/vapubs> and its handbooks to ensure appropriate security controls are in place.

B. Access to VA Information and VA Information Systems

VA will supply the Contractor with the minimum logical (technical) and/or physical access to VA information and VA information systems for employees, sub-contractors: (1) to perform the services specified in the contract, (2) to perform necessary maintenance functions for electronic storage or transmission media necessary for performance of the contract, and (3) for individuals who first satisfy the same conditions, requirements, and restrictions that comparable VA employees must meet to have access to the same type of VA information.

All Contractors and subcontractors working with VA Sensitive Information are subject to the same investigative requirements as those of regular VA appointees or employees who have access to the same types of information. The level of background security investigation will be in accordance with VA Directive 0710, Handbook 0710, which are available at: <http://www1.va.gov/vapubs>, and VHA Directive 0710 and Implementation Handbook 0710.01, which are available at: <http://www1.va.gov/vhapublications/index.cfm>. Contractors are responsible for screening their employees. The following are VA's approved policy exceptions for

meeting VA background screenings/investigative requirements for certain types of Contractor personnel:

- i. Contractor personnel not accessing VA information resources, such as personnel hired to maintain the medical facility grounds, construction contracts, utility system contractors, etc.
- ii. Contractor personnel with limited and intermittent access to equipment connected to networks on which no VA sensitive information resides.
- iii. Contractor personnel with limited and intermittent access to equipment connected to networks on which limited VA sensitive information resides and with limited and intermittent access to facilities at which they are escorted.

C. VA Information Custodial Requirements

VA information provided to the Contractor for either the performance or administration of this contract shall only be used for those purposes. No other use is permitted without the CO's express written authorization. This clause expressly limits the Contractor's rights to use data as described in Rights in Data - General, FAR 52.227-14(d)(1). The Government shall retain the rights to all data and records produced in the execution or administration of this contract.

Prior to termination or completion of this contract, Contractor will not destroy information received from VA or gathered or created by the Contractor in the course of performing this contract without prior written approval by the CO. A Contractor destroying data on VA's behalf must do so accordance with National Archives and Records Administration (NARA) requirements as outlined in VA Directive 6300, Records and Information Management and its Handbook 6300.1 Records Management Procedures, and applicable VA Records Control Schedules. All data and reports shall be transferred to VBA upon contract completion.

The Contractor shall not make copies of VA information, electronic or otherwise, except as necessary to perform the terms of the agreement or to preserve electronic information stored on Contractor electronic storage media for restoration in case any electronic equipment or data used by the Contractor needs to be restored to an operating state.

The Contractor shall not use technologies banned in VA in meeting the requirements of the contract (e.g., Bluetooth-enabled devices).

D. Physical Security

If the contract requires taking VA data to a Contractor site and the data contains Personally Identifiable Information, the Contractor shall provide an independent physical security assessment of their facility to the COR prior to commencing work. General guidelines for physical security can be found in VA Directive 0730, Section 6 (Physical Security) and VA Memorandum (subj: IT Oversight & Compliance Information Physical Security Assessments) dated October 24, 2007.

E. Training

All Contractor and subcontractor personnel requiring access to VA information and VA information systems shall complete the following before being granted access to VA information and networks:

1. Sign and acknowledge understanding of and responsibilities for compliance with the National Rules of Behavior related to access to VA information and information systems.
2. Successfully complete VA Information Security Awareness training and annual refresher training as required.
3. Successfully complete VA Privacy Awareness training and annual refresher training as required.
4. Successfully complete any additional Information Security or Privacy training as required for VA personnel with equivalent information system access.

The Contractor shall provide to the COR a copy of the training certificates for each applicable employee within one week of the initiation of the contract and annually thereafter, as required. These online courses are located at <https://EES-Learning.net>.

Failure to complete this mandatory training within the timeframe required will be grounds for suspension or termination of all physical and/or electronic access privileges and removal from work on the contract until such time as the training is completed.

F. Contractor Personnel Security

All contract employees who require access to the VA site(s) and/or access to VA local area network (LAN) systems shall be the subject of a background investigation and must receive a favorable adjudication from the VA Security and Investigations Center (SIC). These requirements are applicable to all subcontractor personnel requiring the same NACI Background Investigation.

The level of background security investigation will be in accordance with VA Directive 0710 dated June 4, 2010 and is available at: http://www.va.gov/vapubs/viewPublication.asp?Pub_ID=487&FTYPE=2.

G. Background Investigation

The contract employee level of background investigation required for this effort is: NACI.

H. Contractor Responsibilities

1. The Contractor shall bear the expense of obtaining background investigations or reciprocals of previous investigations held that meet or exceed the required investigation level. The cost of the background investigations is as follows: Low Risk (NACI) \$267, Moderate Risk (MBI) \$952, High Risk (BI) \$3,998 or Reciprocals \$27. VA will pay for investigations or reciprocals processed through the VA SIC and conducted by the Office of Personnel Management (OPM) in advance, however, the Contractor

shall reimburse the full cost of background investigations/reciprocals to VA within 30 days of Bill of Collections received from VA. VA shall send up to three plus one final delinquent notice to the Contractor. If the Contractor does not adhere to the Bill of Collections, future invoices may be subject to be offset by VA to recoup background investigation/reciprocal costs.

2. Immediately after contract or task order award, the Contractor must submit the completed Attachment 4 form (VBA Contractor Background Investigation Request Worksheet) to the COR to begin the background investigation process for all contract employees working on the contract, who will have access to VA facilities, VA systems, or privacy data.

3. The Contractor and Contractor point of contact (POC) will receive an email notification from SIC identifying the website link that includes detailed instructions regarding completion of the background clearance application process and what level of background was requested. Reminder notifications will be sent if the complete package is not submitted by the due date.

4. The Contractor shall prescreen all personnel who require access to VA site(s) and/or access to VA LAN systems to ensure they maintain a U.S. citizenship or Alien Registration that authorizes them to work in the U.S. and are able to read, write, speak and understand the English language.

5. Contractors who have a current favorable background investigation conducted by OPM or Defense Security Service (DSS) may be accepted through reciprocity. When a previous clearance is currently held, it does not preclude the offeror from submitting a completed Attachment 4 form to the COR immediately after contract or task order award for all contract employees working on the contract.

6. Contract performance shall not commence before SIC confirmation that it has received the Contractor's investigative documents, that they are complete, and that the investigation information has been released to OPM for scheduling of the background investigation. Once the Contractor's background investigation has been released to OPM for scheduling of the background investigation or the SIC has confirmed that the verified investigation will be reciprocated, contract performance may commence. The COR will notify and forward the Contractor a copy of the Certificate of Eligibility (form 4236) when the investigation has been favorably completed and adjudicated. The Contractor, if notified of an unfavorable adjudication by the Government, shall withdraw the employee from consideration from working under the contract. Failure to comply with the Contractor personnel security requirements may result in termination of the contract for default.

7. If the security clearance investigation is not completed prior to the start date of the contract, the contract employee may work on the contract with an initiated status while the security clearance is being processed. However, the Contractor shall be responsible for the actions of those contract and subcontract employees they provide to perform work for VA. In the event damage arises from work performed by Contractor personnel, under the auspices of the contract, the Contractor shall be responsible for resources necessary to remedy the incident.

8. Should the Contractor use a offeror other than OPM or DSS to conduct investigations, the investigative company must be certified by OPM/DSS to conduct Contractor investigations. The Offeror Cage Code number must be provided to the VA SIC, which will verify the information and conclude whether access to the Government's site(s) and/or VA LAN systems can be.

9. The investigative history for Contractor personnel working under this contract must be maintained in the databases of either OPM or the Defense Industrial Security Clearance Organization (DISCO).

I. Government Responsibilities

1. After the VR&E COR and EDU COR have received Attachment 4 form(s) from the Contractor, SIC will send an e-mail notification to the Contractor and their POC identifying the website link that includes detailed instructions regarding completion of the background clearance application process and what level of background was requested. SIC will also send reminder notifications to the Contractor and their POC if the complete package is not submitted by the due date.

2. Upon receipt of required investigative documents, SIC will review the investigative documents for completion and initiate the background investigation by forwarding the investigative documents to OPM to conduct the background investigation. If the investigative documents are not complete, SIC will return the package to the Contractor with corrective instructions.

3. VA will pay for investigations and reciprocals processed through the VA SIC and conducted by OPM in advance, however, the Contractor shall reimburse the full cost of background investigations/reciprocals to VA within 30 days of Bill of Collections from VA. VA shall send up to three plus one final delinquent notice to the Contractor. If the Contractor does not adhere to the Bill of Collections, future invoices may be subject to be offset by VA to recoup background investigation costs and may be considered grounds for default.

4. The COR will notify and forward the Contractor a copy of the Certificate of Eligibility (form 4236) when the investigation has been favorably completed and adjudicated. The VR&E COR and EDU COR will also notify the Contractor of an unfavorable adjudication by the Government.

J. Security Incident Investigation

a. The term "security incident" means an event that has, or could have, resulted in unauthorized access to, loss or damage to VA assets, or sensitive information, or an action that breaches VA security procedures. The Contractor/subcontractor shall immediately notify the COR and simultaneously, the designated ISO and Privacy Officer for the contract of any known or suspected security/privacy incidents, or any unauthorized disclosure of sensitive information, including that contained in system(s) to which the Contractor/subcontractor has access.

b. To the extent known by the Contractor/subcontractor, the Contractor/subcontractor's notice to VA shall identify the information involved, the circumstances surrounding the incident (including to whom, how, when, and where the VA information or assets were placed at risk or compromised), and any other information that the Contractor/subcontractor considers relevant.

c. With respect to unsecured protected health information, the business associate is deemed to have discovered a data breach when the business associate knew or should have known of a breach of such information. Upon discovery, the business associate must notify the covered entity of the breach. Notifications need to be made in accordance with the executed business associate agreement.

d. In instances of theft or break-in or other criminal activity, the Contractor/subcontractor must concurrently report the incident to the appropriate law enforcement entity (or entities) of jurisdiction, including the VA OIG and Security and Law Enforcement. The Contractor, its employees, and its subcontractors and their employees shall cooperate with VA and any law enforcement authority responsible for the investigation and prosecution of any possible criminal law violation(s) associated with any incident. The Contractor/subcontractor shall cooperate with VA in any civil litigation to recover VA information, obtain monetary or other compensation from a third party for damages arising from any incident, or obtain injunctive relief against any third party arising from, or related to, the incident.

K. Liquidated Damages for Data Breach

a. Consistent with the requirements of 38 U.S.C. §5725, a contract may require access to sensitive personal information. If so, the Contractor is liable to VA for liquidated damages in the event of a data breach or privacy incident involving any SPI the Contractor/subcontractor processes or maintains under this contract.

b. The Contractor/subcontractor shall provide notice to VA of a "security incident" as set forth in the Security Incident Investigation section above. Upon such notification, VA must secure from a non-Department entity or the VA Office of Inspector General an independent risk analysis of the data breach to determine the level of risk associated with the data breach for the potential misuse of any sensitive personal information involved in the data breach. The term 'data breach' means the loss, theft, or other unauthorized access, or any access other than that incidental to the scope of employment, to data containing sensitive personal information, in electronic or printed form, that results in the potential compromise of the confidentiality or integrity of the data. Contractor shall fully cooperate with the entity performing the risk analysis. Failure to cooperate may be deemed a material breach and grounds for contract termination.

c. Each risk analysis shall address all relevant information concerning the data breach, including the following:

- (1) Nature of the event (loss, theft, unauthorized access);
- (2) Description of the event, including:

- (a) Date of occurrence;
- (b) Data elements involved, including any PII, such as full name, social security number, date of birth, home address, account number, disability code;
- (3) Number of individuals affected or potentially affected;
- (4) Names of individuals or groups affected or potentially affected;
- (5) Ease of logical data access to the lost, stolen or improperly accessed data in light of the degree of protection for the data, e.g., unencrypted, plain text;
- (6) Amount of time the data has been out of VA control;
- (7) The likelihood that the sensitive personal information will or has been compromised (made accessible to and usable by unauthorized persons);
- (8) Known misuses of data containing sensitive personal information, if any;
- (9) Assessment of the potential harm to the affected individuals;
- (10) Data breach analysis as outlined in 6500.2 Handbook, Management of Security and Privacy Incidents, as appropriate; and
- (11) Whether credit protection services may assist record subjects in avoiding or mitigating the results of identity theft based on the sensitive personal information that may have been compromised.

d. Based on the determinations of the independent risk analysis, the Contractor shall be responsible for paying to the VA liquidated damages in the amount of \$37.50 per affected individual to cover the cost of providing credit protection services to affected individuals consisting of the following:

- (1) Notification;
- (2) One year of credit monitoring services consisting of automatic daily monitoring of at least 3 relevant credit bureau reports;
- (3) Data breach analysis;
- (4) Fraud resolution services, including writing dispute letters, initiating fraud alerts and credit freezes, to assist affected individuals to bring matters to resolution;
- (5) One year of identity theft insurance with \$20,000.00 coverage at \$0 deductible; and
- (6) Necessary legal expenses the subjects may incur to repair falsified or damaged credit records, histories, or financial affairs.

L. Security Controls Compliance Testing

On a periodic basis, VA, including the Office of Inspector General, reserves the right to evaluate any or all of the security controls and privacy practices implemented by the Contractor under the clauses contained within the contract. With 10 working-days' notice, at the request of the government, the Contractor must fully cooperate and assist in a government-sponsored security controls assessment at each location wherein VA information is processed or stored, or information systems are developed, operated, maintained, or used on behalf of VA, including those initiated by the Office of Inspector General. The government may conduct a security control assessment on shorter notice (to include unannounced assessments) as determined by VA in the event of a security incident or at any other time.

8.2 FACILITY/RESOURCE PROVISIONS

The Government will provide office space, telephone service and system access for the program analyst authorized to work at a Government location. All procedural guides, reference materials, and program documentation for the project and other Government applications will also be provided on an as-needed basis.

iv. **VOLUME IV - PRICE FACTOR.**

The Offeror shall complete the Pricing Schedule (B.3 PRICE SCHEDULE) of the RFP. Offeror must propose pricing for each line item for all contract years. For any items that will be not separately priced, note such with "NSP". Note that travel will be priced as a not-to-exceed amount, provided by the Government at time of award.

Price Rounding Issue - The Government requires Offerors to propose unit prices and total prices that are two decimal places and requires the unit prices and total prices to be displayed as two decimal places. Ensure that the two

digit unit price multiplied by the item quantity equals the two digit total item price (there should be no rounding).

v. VOLUME V - SOLICITATION, AMENDMENTS, CERTIFICATIONS/REPRESENTATIONS (FAR 52.212-3) AND SUBCONTRACTING PLAN.

Offerors shall submit administrative information, including a cover letter and representations and certifications. For all large businesses submitting a response to the RFP, the administrative information volume shall include the offeror's proposed Subcontracting Plan, which shall include a listing of the percentage of the total contract value that is targeted to be subcontracted to small businesses. The plan shall, at a minimum, include the percentage proposed for each small business type (i.e., SDVOSB, VOSB, HUBzone, Small Disadvantaged Business, Women Owned Small Business, and Small Business) as a percentage of the entire contract value. All administrative information submitted shall conform to the formatting outlined above and shall not exceed the page limit outlined above.

The cover letter shall include all the information required by FAR 52.212-1 signed by an individual authorized to commit the company to the proposal. The cover letter shall identify the number and description of the proposals being transmitted. The cover letter shall reference the solicitation number and acknowledge that it transmits an offer in response to the solicitation. It shall state:

- Duns Number;
- Taxpayer Identification Number (TIN);
- Proposal bid acceptance date – the number of days proposals remain valid after submission (120 days minimum),
- Names, telephone numbers, and email addresses of persons authorized to conduct negotiations, as well as the name of the official authorized to bind the Offeror's organization shall be clearly identified; and
- Statement that the Offeror represents, by submitting the offer, that there is no Organizational Conflict of Interest (for the prime or any known team member/Subcontractor) that would preclude the Government from awarding the Offeror the contract, and no Organizational Conflict of Interest, which would preclude the Offeror, including any and all team members, from performing the contract without a mitigation plan. If an Organizational Conflict of Interest exists, the Offeror shall clearly detail the Conflict of Interest in its proposal and propose a detailed risk mitigation plan for how the Offeror can successfully manage the risks inherent to the Organizational Conflict of Interest. The mitigation plan will be evaluated by the Government in order to determine whether the Offeror may be considered for award.

Certifications and Representations - An authorized official of the firm shall sign the SF 1449 and all certifications requiring original signature. An Acrobat PDF file shall be created to capture the signatures for submission. This Volume shall contain the following:

- a) Solicitation Section A – Standard Form (SF1449) and Acknowledgement of Amendments, if any;
- b) Any proposed terms and conditions and/or assumptions upon which the proposal is predicated; and
- c) Completed *Offerors Representations and Certifications-Commercial Items* (see provision 52.212-3).

Offerors are hereby advised that any Offeror-imposed terms and conditions and/or assumptions which deviate from the Government's material terms and conditions established by the Solicitation, may render the Offeror's proposal Unacceptable, and thus ineligible for award.

E. EVALUATION CRITERIA

All proposals shall be subject to evaluation by a team of Government personnel. The Government reserves the right to award without discussions based upon the initial evaluation of proposals. The proposal will be evaluated strictly in accordance with its written content. Proposals which merely restate the requirement or state that the requirement will be met, without providing supporting rationale, are not sufficient. Offerors that fail to appropriately and completely address the minimum requirements of the solicitation will be found nonresponsive and thus, ineligible for award.

1. PAST PERFORMANCE EVALUATION

The Past Performance evaluation will assess the relative risks associated with a Offeror's likelihood of success in fulfilling the solicitation's requirements as indicated by that Offeror's record of past performance. In this context, "Offeror" refers to the proposed prime contractor and all proposed subcontractor(s). The prime contractor and proposed subcontractor(s) will be assessed individually and the results will then be assessed in their totality to derive the Offeror's Past Performance rating.

The Government will conduct a performance risk assessment based on the quality, relevancy, and recency of the Offeror's past performance, as well as that of its major subcontractors, as it relates to the probability of successful accomplishment of the required effort. Offerors are cautioned that the Government may review available past performance data available in the Past Performance Information Retrieval System (PPIRS). The Government reserves the right to obtain past performance information from any available source and may contact customers other than those identified by the Offeror when evaluating past performance. Since the Government may not necessarily interview all of the sources provided by the Offerors, it is incumbent upon the Offerors to explain the relevance of the data provided. Offerors are reminded that the burden of proving low performance risk rests with the Offerors.

The Past Performance Approach will be evaluated based on the narrative, Past Performance Questionnaires (PPQs), Attachment 5 and other Government sources for quality, timeliness, and relevance (i.e., experience in providing services similar in size, scope, and/or complexity as described in the PWS). The Government will make

determination of relevance (areas of relevance are defined in PROPOSAL PREPARATION AND SUBMISSION INSTRUCTIONS above). If no past performance information is readily available (FAR 15.306(a) (2) (iv)), the Offeror's past performance will be evaluated as Neutral.

2. TECHNICAL APPROACH EVALUATION. The evaluation process will consider the following:

a. Offeror's Understanding of the Work - The proposal will be evaluated to determine the extent to which it demonstrates a clear understanding of all features involved in solving the problems and meeting and/or exceeding the requirements presented in the solicitation and the extent to which uncertainties are identified and resolutions proposed. A proposal which merely restates the requirement or states that the requirement will be met, without providing supporting rationale, will be rated Unsatisfactory.

b. Feasibility of the Offeror's Approach - The proposal will be evaluated to determine the extent to which the proposed approach is workable and the end results achievable. The proposal will be evaluated to determine the level of confidence provided the Government with respect to the Offeror's methods and approach in successfully meeting and/or exceeding the requirements in a timely manner. Additionally, the biographies of the key personnel will be evaluated to ensure that they meet the minimum qualifications stated in Section 7.1 of the PWS and demonstrate experience consistent with the requirements of the PWS. Biographies that demonstrate qualifications exceeding the minimum requirements may enhance the offeror's approach and be rated more favorably, particularly in the areas of:

- a) Specific knowledge of self-directed program design and operations;
and
- b) Expert knowledge of financial management for HCBS and self-directed services.

c. Completeness of Offeror's Approach - The proposal will be evaluated to determine whether the Offeror's methods and approach have adequately and completely considered, defined, and satisfied the requirements specified in the solicitation. The proposal will be evaluated to determine the extent to which each requirement has been addressed in accordance with the proposal submission instructions of the solicitation.

d. Risk relative to the technical approach is evaluated as part of the Technical Approach evaluation to ascertain the degree of risk associated with the contractor's proposed approach and the likelihood of success.

3. VETERANS INVOLVEMENT EVALUATION.

In accordance with VAAR 852.215-70, Service-Disabled Veteran-Owned and Veteran-Owned Small Business (VOSB) Evaluation Factors, the Government will assign full evaluation credit for an Offeror (prime contractor) which is a Center for Verification and

Evaluation (CVE) registered and verified Service-Disabled Veteran-Owned Small Business (SDVOSB) and partial credit for a verified VOSB prime offeror. Non-SDVOSB/VOSB offerors proposing to subcontract 7% or more of the contract value to a verified SDVOSB concern or 10% or more of the contract value to a verified VOSB concern will receive some evaluation credit. Note that in order to receive credit under this evaluation factor, prime contractor SDVOSBs and/or VOSBs or proposed subcontractor SDVOSBs and/or VOSBs must be registered in SAM, the offeror Information Pages (VIP) at <http://www.vip.vetbiz.gov/>, and verified by the CVE at the time of award.

4. PRICE EVALUATION.

The Government will evaluate price reasonableness using price analysis techniques as prescribed in FAR 15.404-1(b). Price will not be evaluated adjectivally or assigned a score. The Government will evaluate offers by adding the total of all line item prices, including all options. The Government will also evaluate price reasonableness for the utilization of FAR 52.217-8.

FAR Clause 52.217-8 Option to Extend Services. As part of price evaluation, the Government will evaluate its option to extend services (FAR Clause 52.217-8 – Option to Extend Services) by adding one-half of the offeror's final option period prices to the offeror's total price. Thus, the offeror's total price for the purpose of evaluation will include the base period, 1st option, 2nd option, and one-half of the 2nd option. Offerors are required only to price the base and two options. Offerors shall not submit a price for the potential on-half year extension of services period.

Unbalanced Pricing - The Government may evaluate whether the offeror has submitted unbalanced pricing. An unbalanced price is one where the price of one or more contract line items is significantly overstated or understated and which will result in the Government paying an unreasonably high price for contract performance or otherwise present an unacceptable level of risk to the Government. If the Contracting Officer determines that the risk is unacceptable, then the offer can be rejected.

[List as necessary]

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) *Certification Regarding Responsibility Matters* (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(i) *Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126).*

(1) *Listed end products.*

Listed End Product Listed Countries of Origin

On the basis of those efforts, the offeror certifies that it is not aware of any such use of child labor.

(2) ☐ Outside the United States.

(k) *Certificates regarding exemptions from the application of the Service Contract Labor Standards.* (Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services.)

☐ (1) Maintenance, calibration, or repair of certain equipment as described in FAR 22.1003-4(c)(1). The offeror ☐ does ☐ does not certify that—

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

(l) *Taxpayer Identification Number (TIN)* (26 U.S.C. 6109, 31 U.S.C. 7701). (Not applicable if the offeror is required to provide this information to the SAM database to be eligible for award.)
